Everything's close to home

Enjoy sustainable living

At Kingston Wharf you have everything on your doorstep: the sea, a riverside walk, a lively seaside town, the stunning backdrop of the South Downs and direct connections into multiple cities.

Having the option to walk, cycle or take public transport everywhere, enriches the local area and helps to reduce your impact on the environment.

Sustainable living is at the heart of the design at Kingston Wharf. Homes have been built following a fabric first approach to minimise heat loss and maximise energy-efficiency - this means that your homes will be both less expensive to run and kinder to the planet.

Other notable sustainability features include direct-to-your apartment photovoltaic (PV) panels and waste water heat recovery systems. Both contributing to an impressive EPC B rating for Kingston Wharf.

Adding to the all-electric energy ethos, Kingston Wharf also offers cycle storage, and electric vehicle charging points to selected homes, all included in the underground parking facilities, to help residents make the shift towards greener modes of transport and more sustainable living. There will also be an on-site city car club for those who don't own a car but wish to have access should they need one.

Kingston Wharf offers the very best of both worlds, affordable luxury and greener living fit for the future.

Buying your new home

Our in-house team of sales consultants are dedicated to providing exceptional service to all of our customers and we aim to make the experience of buying your new home with us as smooth, enjoyable and straightforward as possible. From your initial enquiry, through to handing you the keys to your new home, our friendly and knowledgeable team are available both in person and online, to answer your questions and help you find the home buying option that's right for you.

Shared ownership

Shared ownership is a scheme which has been specifically designed to help those who are unable to afford the cost of buying a property outright on the open market.

It works by enabling you to purchase a share in your new home, and pay a subsidised rent on the part you don't own to Hyde New Homes.

You will own an equity share in your new home. A lease is a legal document between the freeholder or landlord and the purchaser and is binding on both sides and since you will own a lease you will be a 'leaseholder'. The lease covers the responsibilities including maintenance, rent settings, purchasing more equity, selling and insurance. You will have these responsibilities as a full owner occupier.

Shared ownership explained

Who's eligible?

- The maximum initial share you can buy is 75%
- You will only need a deposit for the share you buy
- As a shared owner you will be a leaseholder

- The leases on our new build homes are typically 990 years

How does staircasing work?
