Buying your new home

Our in-house team of sales consultants are dedicated to providing exceptional service to all our customers and we aim to make the experience of buying your new home with us as smooth, enjoyable and straightforward as possible. From your initial enquiry, through to handing you the keys to your new home, our friendly and knowledgeable team are available both in person and online, to answer your questions and help you find the home buying option that's right for you.

Shared ownership

Shared ownership is a scheme which has been specifically designed to help those who are unable to afford the cost of buying a property outright on the open market.

It works by enabling you to purchase a share in your new home, and pay a subsidised rent on the part you don't own to Hyde.

You will own an equity share in your new home. A lease is a legal document between the freeholder or landlord and the purchaser and is binding on both sides and since you will own a lease you will be a 'leaseholder'. The lease covers the responsibilities including maintenance, rent settings, purchasing more equity, selling and insurance.
